

Friday, 20th OCTOBER

7 for 7:30pm

First Light

Daresbury and the Synchrotron Radiation Source

Speaker

Alan Brown

Daresbury Laboratory

Join Alan Brown as he explores the history of Daresbury Laboratory
since its establishment in 1962.

Through a visually engaging presentation, he will delve into the laboratory's contributions to the advancement of science, highlighting both the people and technology behind these achievements.

Alan, with his varied roles at the lab, offers a distinctive perspective on laboratory everyday operations as well as its remarkable legacy. He will also shed light on some of the less-known facts including the purpose and the story of the iconic concrete tower.

★ **TICKETS £5 (Students £2)** ★

Refreshments available – donations will be gratefully received
